

London Map at three levels:

These sample dashboards show polygon maps for local authorities at various geographical levels including LAD, Ward, and LSOA in a hierarchical way, each sub-graph for a particular level. The Wards within each Borough and the LSOAs within each Ward can be shown distinguishingly with their boundaries. Selecting a location at any geographical level from a sub-graph, the corresponding locations at a higher and/or lower geographical level can be shown accordingly.

London Borough Profile Dashboard:

These sample dashboards show a borough's performance based on a set of given measures with comparison with all the other boroughs in London. Different colours indicate different performance levels. User can select a particular borough of interest by using the map provided or the list of borough names.
